PAHOKEE READY FOR OPENING OF SCHOOL SEP. 24

Officials Expect Largest Enrollment in History of The School

TEACHERS ARRIVE

New Addition to Be Ready For Use About First of November

E. E. Bishop, supervising principal of Pahokee schools, announces that everything will be in readiness for the opening of school on Monday morning, September 24th. A full list of teachers and their assignments will be carried in the columns of The Everglades News next week.

It was thought that the new addition to the school building would be ready for occupancy with the opening of school, but it will be impossible to use the new structure before the first of November, it was stated. Work is rapidly going forward on the new building when finished will greatly relieve the congested condition of the school.

Mr. and Mrs. Bishop are home from a three-week trip to northern Alabama where they visited friends and relatives, and also a trip to Chicago where they saw the Century of Progress exhibit. Coach Frank Hobson arrived in Pahokee Monday afternoon and is on a pre-season training trip with his football squad. Other school teachers are arriving and perfecting plans for the coming year of school work.

Janitors are busy this week cleaning and repainting the rooms in order to have ready for students when the going sounds on Sept. 24th.

Mr. Bishop stated that according to a ruling made by the county board of education, it will be in the county for at least two weeks before entering school. This is a precaution taken by the board to ward off any of the influenza. He also said that should any Continued on Page Four

CASTLES IN THE GLADES USED TO PAY TAXES

By Marjorie B. Wallace

One of the surest consolations in this vale of tears is the fact that there is an end to everything, bad or worse. Lincoln in the midst of his terrifying misadventure helped to think, "this too, will pass." Our friends "Coke" had the idea—his "castle" in the Glades. So, friends, Romans and Catholics, men, next week we come to the end of the Kolum, at least as far as I am concerned, the end of the Kolum will be duly set forth in the farewell appearance. So, if there is anything that you would like me to say about anything, hurry up and tell me, for opportunity knocks to more, how I know that there are already some who are saying, "Yah! I knew smart-alecky woman would go too far some day and be ready to quit!" So sorry, my dear friends—but I have yet to endure my first rebuke from the Kolum, and the most sincere regrets that the Kolum must close his career this week. The Kolum's career has been a struggle, more than once, trying to keep peace in my family of dredges and contractors and spectators, but I believe the Kolum only friends behind. I hope so.

Last week I got up all my space before I went out to telling you about the early leave to the sea. I was told, "I joined me a Fred Nebler, who in 1918 there was discussion about the advisability and feasibility of draining the Everglades, and strange to say, they say the sawgrass lands around the lake, and as well, that was soon found to be impractical, but agitation for canals from the years and for volume of reports before anything was done about it. Originally the scheme of a dike around the south and east shore of the lake was an alternative to the digging of canals, and was (Continued on Page Four)

CASTLES IN THE GLADES TO END NEXT WEEK

It is with sincere regret that the management of The Everglades News announces the termination of the "Castles in the Glades," with next week's issue. This "Baptist" has been capably and interestingly written by Mrs. Marjorie B. Wallace for the past several months.

New readers in the Everglades have come to look regularly for the column and it has gained a wide circle of interested readers each week. Mrs. Wallace and her estimable family will move to West Palm Beach, to make their home.

WIFE OF PAHOKEE COUNCIL MEMBER DIES AFTER ILLNESS OF 12 DAYS

The funeral was conducted by Rev. J. P. Dalton, pastor of the Baptist church in Pahokee, for Mrs. W. H. Cochran who died in a West Palm Beach hospital Tuesday afternoon at 9:30 o'clock after an illness extending over a period of 12 days. Burial was made in Woodlawn cemetery at West Palm Beach.

MOORE-HAVEN DOCK BIDS TO BE OPENED MONDAY, OCTOBER 1

Largest Single Structure in Connection with Federal Flood Project

Bids on the combined hurricane gate and navigation lock at Moore Haven will be opened in the offices of the U. S. District engineer on Monday, October 1. The locks and navigation channel, along with the erection of a maintenance department wharf, a warehouse and a stockpile of material, will constitute the largest structure on the Lake Okechobee Flood Control program.

The structure will be known as the "Moore Haven Lock" and will be situated one-half mile north of the Lake. A copy of the specifications fills 113 typewritten pages. The successful bidder will be required to begin work within ten days after receiving notice to proceed, and the contract must be completed within one year from that date. The hurricane gate must be finished by July 1, 1935.

FARMING PROBLEMS WILL BE DISCUSSED Meeting in Jacksonville on Sept. 27 to Be of Interest to Glades Farmers

A meeting of utmost interest to farmers of the Glades will be held in Jacksonville on September 27, at which time the major problems confronting the farmers of the state will be discussed. The meeting is being held under the auspices of the agricultural committee of the State Chamber of Commerce.

One of the problems to be discussed will be the question of establishing assembling plants for fruits and vegetables at strategic points in the state. The committee of Pahokee, plans to attend the meeting and it is desirable that a discussion will be held in regard to the recent regional trade agreement between the United States and Cuba, its effect on Florida's fruit and vegetable situation.

TO INSPECT 2,500 ACRES TO SETTLE 2,500 ACRES

Plans have been made for five hundred families from the state of Michigan to settle on 2,500 acres in Santa Rosa County. A number of the settlers will establish their homes here this fall. The others will follow later.

TO DEVELOP PROPERTY ALLAHAMBERG, Sept. 13

Wakulla Springs, Inc. plan extensive improvements and development of the beautiful property that will make it one of the outstanding attractions of the state.

No Florida farm should be without its home vegetable garden.

Planting Held Up for Week in Glades by Recent Rains

With the exception of a few spots where the land is high and drainage better than usual, planting is practically at a standstill and will be for another four or five days. The rains of the past week have brought to a stop the early September planting, which was well under way last week. An estimate of 1800 acres of beans, with 10 per cent of them lima, was made last week and very few acres have been planted since that time.

Farmers are going ahead with their plowing and will prepare the soil for planting as soon as it is sufficiently dry to work. Some seem to think that it is a handicap to have to wait another week to put in their crops and others feel that this particular loss of time will not materially affect the season.

FOUR SIGNS RECEIVED BY BANK OF PAHOKEE

Visible Evidence That Depositors of This Institution Are Insured

E. G. Kilpatrick, cashier of the Bank of Pahokee, announces that the bank has received from the Federal Deposit Insurance Corporation at Washington the official signs which will hang at all receiving windows as visible evidence that the depositors of this institution are insured.

The Bank of Pahokee is one of more than 14,000 licensed banks in the country which are receiving the official signs of the Federal Deposit Insurance Corporation. The signs are placed on the windows of the banks to show the public that the banks are insured.

The purpose of the signs is to let depositors know which banks are insured. Hereafter, although the per cent of insured banks is increasing, depositors have had no easy means of identifying them.

"If by any unforeseen circumstance, an insured bank should suspend, the Insurance Corporation would be sure to pay the depositors just as soon as a receiver was appointed for the insolvent institution. The depositors would receive their money in a few days instead of waiting months or years as was the case in the former method of liquidation. This is not only a benefit to the depositors, but it saves the country from a terrible economic and social blow. When the depositors receive their insured money they are assured that the Insurance Corporation will pay them."

FARMING COURSE IS OFFERED BOYS CANAL PAHOKEE

H. L. Speer, Teacher of Agriculture, Sets Rules and Regulations

The pupil taking agriculture in Pahokee, in a statement issued this week sets out the rules and regulations by which boys of Pahokee and Canal Point schools may take the course. It follows:

1. The course in agriculture will be offered in the Canal Point and Pahokee schools to the following groups: at Canal Point for boys in the eighth grade and for boys in the tenth and eleventh grades.

All boys taking agriculture are required to grow a crop in addition to their class work, and must be satisfactory in their work and caring for the crop in order to pass the course.

The pupil taking agriculture is required to provide his own land, prepare it, furnish seed and fertilizer and in fact arrange to finance the course.

HAWAIIAN BREEDER VISITS CANAL STATION

Highly Impressed with Results at U. S. Plant Field Station in Canal Point

Albert Mengedsof, of Hawaii, was an interested visitor at the U. S. Plant Field Station in Canal Point on Friday and Saturday of the past week. He was accompanied by two brothers, Paul and George, a corn breeder of Hawaii, and another Theodore Mengedsof, a chemical engineer, who also lives in Hawaii.

Albert Mengedsof is a cane breeder in Hawaii and was highly impressed with the results of the work at the Canal Point station. He was particularly interested in the methods used in the two countries.

He was particularly interested in the methods used in the two countries. He was particularly interested in the methods used in the two countries. He was particularly interested in the methods used in the two countries.

PAHOKEE MASONS TO BANQUET AND INITIATE CLASS

Members of Everglades Lodge No. 211, F. & A. M., in Pahokee, will give a genuine "get-together" meeting next Tuesday night, Sept. 24th, when the new class of initiates will be initiated.

The meeting will be held at the Dixie hotel, and it has been stated by those who are in the know that the new class of initiates will start shortly at seven o'clock.

Following the banquet and "get-together" meeting a class of initiates will be given the Master's degree. Especially anxious to receive the degree are the new initiates who will be initiated at the evening that all Masons be in attendance.

STORE FRONTS ARE BEING REPAINTED THIS WEEK

Dressing up store fronts is the order of the day in Pahokee at the present time. The fronts of the stores are receiving new coats of paint. The new store fronts at this point this week. Both store fronts are being painted sage green.

SIR MALCOLM CAMPBELL To Try for New Record

DAYTONA BEACH, Sept. 13.—Sir Malcolm Campbell, renowned English racer, is now making final preparations for his journey to Daytona for an attempt to break his world's auto speed record which he himself set on February 22, 1933 when he drove his famous Blue Bird 272.188 miles per hour to travel faster than any human being has traveled on earth before or since.

Since the announcement of May or Edward H. Armstrong that Sir Malcolm was again to participate in the speed trials here early in January, intense interest has been manifested throughout the nation and Daytona Beach will be ready to entertain the largest crowd of racing enthusiasts yet to meet.

Three hundred miles to break the mark which the titled Briton will be shooting at when he speeds his 1934 Buick across the remodeled Blue Bird. He has expressed confidence that the perfect racing conditions which will be met at Daytona Beach will make it possible for him to attain this speed.

SINGING CLASS GIVES PROGRAM IN PALM BEACH

The East Beach Singing Class, composed of between 50 and 60 members, rendered a program in the band shell in City park in West Palm Beach last night. It was the second sing of this nature to be rendered in the East coast.

Singing started at eight o'clock under the direction of Olin Coward, leader, and continued for an hour. Songs, duets, quartets and group songs were rendered by the class. A highly appreciative audience was in attendance.

Now is the time to enrich and prepare soils for annual flower planting so that they will be in good condition when the seedlings are ready.

PAHOKEE HIGH SCHOOL GRID SCHEDULE FOR '34

Coach Frank Hobson, of Pahokee High School, announces the following schedule for his gridmen for the season of 1934: Oct. 5—Pomona Delton, there. Oct. 12—Vero Beach, there. Oct. 19—Open.

Nov. 2—Lake Worth, Pahokee. Nov. 9—W. Palm Beach, there.

Nov. 16—Avon Park, Pahokee. Nov. 23—Open.

Nov. 29—Okeechobee, Pahokee.

HANDLING COSTS CUT FOR FLORIDA RELIEF

Administrative Costs Are Slashed 70 Percent, Connors Says

Cost of administering relief by the Florida Emergency Relief Administration has been reduced 70 percent since last March, without reducing the amount of relief being effective, according to a statement made by Jerome A. Connors, assistant state administrator.

The administration's Department of Research and Statistics has completed a comprehensive report on the cost of operating since last March, which promises to be one of the most interesting accomplishments of the administration it was said.

Reduced relief allocations pointed out the necessity of reducing costs in order to release for general relief purposes a greater portion of the inadequate funds, according to Mr. Connors, and the desire to maintain certain standards of efficiency indicated that reductions must be made.

The results of a determined effort to reduce costs have been un-expected, in the opinion of Mr. Connors.

The department's figures show that annual expenditures for administration, based on figures for the week ended March 8, amounted to \$4,662,983. By July 5, the expenditures had been reduced to \$1,405,829.85, an annual reduction of \$3,257,153.63, or almost 70 per cent.
